

Lamborghini Academy 2009
Extreme driving experience

Lamborghini Academy 2009

Shifting, Steering, Braking. And who said men can't multi-task?

The opportunity to improve your driving skills in the ultimate super sports car, or your chance to drive a Lamborghini for the first time - Lamborghini Academy offers two levels of course.

The Lamborghini Track Academy provides an entry into the world of Lamborghini and offers the ideal opportunity to develop your track driving skills under professional guidance. Courses are open to all sports car enthusiasts as well as Lamborghini owners.

This 1.5 day course starts with a theory session and briefing on Day One (arrival day), including a formal meeting with your driving instructors as well as an informal introduction over dinner!

Day Two is a full day on track, split between handling exercises and track sessions. Controlled skids, breaking techniques, manoeuvring with/without ESP and other safety exercises will allow you to explore both your own capabilities and those of the Lamborghini you're driving. Always with our professional instructors in the co-driver's seat, discover your own abilities as well as those of the car: thrill in the environment of a high speed race track, pushing the limits of the powerful Lamborghini Gallardo LP 560-4 with its permanent all-wheel drive.

The Lamborghini Advanced Academy is dedicated to perfecting your track driving skills, concentrating on improving vehicle control, achieving the perfect racing line, and maximising the driver's overall performance on the race track with the help of advanced telemetry. This course is reserved for participants who have already attended a Lamborghini Track Academy course.

An important feature of this course is the driving experience gained behind the wheel of Lamborghini's top model, the Murciélago LP 640 with its 640 hp 12-cylinder engine: the fastest and most extreme super sports car in its class.

The one day program will start with a theory recap and safety briefing as well as a technical introduction to the LP 640. You will then spend the entire day out on track, rotating between drives in the Gallardo LP 560-4 and the Murciélago LP 640 while sections of your performance are recorded electronically. Your instructors will work with you to evaluate and interpret these telemetry results with the objective of perfecting your overall track performance.

Course dates 2009.

Event	Dates	Location	Price (€)	Nearest Airport
Track 1	20/21 April 09	Vallelunga	3.900	Rome
Track 2	21/22 April 09	Vallelunga	3.900	Rome
